A lightweight hoist that's anything but a lightweight.

The L5LB forged an entirely new, industry-leading benchmark by being smaller, lighter and stronger than any other lever hoist on the market. Its proven strength and durability stand up in an endless array of gruelling applications, including environments where temperatures drop to a bone-chilling -40°C.

KITO CF Hand Chain Hoists

| Item ID | Standard Lift | Capacity (Tonnes) | Weight (Lbs) |
|----------------|---------------|-------------------|--------------|

| KTOCF020-10-10 | 10' | 2 | 49 |

The simple solution for hard work.

The CF exemplifies simplicity in design while making zero compromises on performance. Its die cast aluminum body reduces the hoist weight and won't corrode when exposed to the elements. Plus, the proven 1:1 ratio gear system makes it a fast hoist that's reliable and maintenance friendly. The CF is simply the best choice when you need an economical hoist that doesn't skimp on toughness.
